

# Therapy Matters

## *A Workshop Series with Lynn Preston*

In this once-a-month series, we will delve into eight pivotal dimensions of generative therapeutic process. These workshops are an interweaving of theoretical exploration and experiential demonstrations. They are designed to be accessible and challenging to both beginning and seasoned clinicians.

### **THE NEW US, Part II**

*Wednesday, March 19th, 7:30-9:30pm*

Join us for an extraordinary presentation of how the therapeutic partnership can navigate differences and conflicts, taking small incremental steps toward trust-building connectedness and expanded relational possibilities. We have the opportunity to view a recently released video of Gendlin working with someone who is “allergic to reflection,” his primary mode of responsiveness. A discussion will follow of how this therapeutic couple met these challenges. We will explore some broader ideas about the development of the **NEW US** and the growth of the partners as their therapeutic system is expanded.
