

THERAPY MATTERS

A Workshop Series with Lynn Preston, MA, MS, LP

In this once-a-month series we will delve into 8 pivotal dimensions of generative therapeutic process. These workshops are an interweaving of theoretical exploration and experiential demonstrations. They are designed to be accessible and challenging to both beginning and seasoned clinicians.

We Are Interaction

Wednesday, September 25th, 7:30 - 9:30pm

"WE ARE INTERACTION" says Gene Gendlin. Therefore *"Our primary job as therapists is to be the kind of interaction that will make people better."* This workshop will help to demystify Gendlin's central concept, called "INTERACTION FIRST."

He speaks about this bold and radical idea in the video "The Theory of Focusing-Oriented Therapy," which will be shown in twenty two countries as a part of the worldwide Celebrate Gene Month project. We will see a clip from the film and discuss how this pivotal idea is a fulcrum for all our work in psychotherapy.
