

THERAPY MATTERS

A new workshop series with
LYNN PRESTON, MA, MS, LP

In this once-a-month series we will delve into 8 pivotal dimensions of generative therapeutic process. These workshops are an interweaving of theoretical exploration and experiential demonstrations. They are designed to be accessible and challenging to both beginning and seasoned clinicians.

WORKSHOP ONE

Wednesday, Oct. 24th, 7:30 - 9:15pm

"Evocative Listening and Responding: The Key to Deepening the Therapy Relationship"

How we listen, and what we are listening for, shapes how we *feel* and therefore how we *respond*. It determines the kind of partnership we are co-creating. This first workshop of our new series will go to the heart of therapeutic participation.

Join me in an improvisational exploration of what goes into the moment-to-moment development of the kind of "new us" that brings about therapeutic transformation.

You will have an opportunity to role play your most difficult therapeutic interactions in a playful and supportive exploration.
